NEW MEXICO

By a new Maverick Bull writer: META HUZAREVICH

MAY 23-27, 1992

Saturday morning Mark and Pam Porter, Kelly Abbott, Danny Sherrod, Mike, Bruce, Donna Anderson and Meta met for breakfast at Steven's Rest. After breakfast, we traveled to Wind Cave. We visited Mud City first. Then, we went to look for

Blood River. We ended up going to the upper part of the Cave and had a good look around. We turned off all our lights so Kelly Abbott could experience total darkness as this was her first cave trip. We explored this portion of the Cave and then moved on into the Lower Level. A lot of pictures were taken after we made it to Blood River. This group stayed in Wind Cave about six hours before we exited.

The next morning, we met Joel and Vickie Williams with their group which consisted of Dean, Maizean, Jimmy and Lin. Six people headed into Endless first to flag the short route to Gypsum, Green Lake Room and the War Club Room. These six people were Kelly, Joel, Bruce, Donna, Mike and Meta. Well, the "six" couldn't find the short cut, so two cavers left the Cave and the four remaining cavers started flagging the long route.

These four were Donna, Mike, Kelly and Meta. Later that day, Joel's group followed the pre-marked flagging tape trail as they didn't know where these three rooms were located. On the way out, Donna's group stopped, turned off all their lights and lit a white candle and chanted Nymeyer, but of course, nothing happened. Just before Donna's group left the Cave, Mark and Danny met up with them. Donna went back to the three rooms with them and Mike, Kelly, and Meta headed out of the Cave. The rest of the cavers visited Sand Cave. Joel's group left that day. The next morning Mark, Pam and Kelly headed out. Danny rested.

Mike, Bruce, Donna and Meta went back to McKittrick. They went in to the upper entrance and about half way in to the pit, they saw a buzzard in the Cave. When they arrived at the pit, they decided to back and go through the lower entrance. The buzzard led the way out. Once they got in through the lower entrance Meta and Donna started the video camera and Mike and Bruce started taking pictures.

Once they arrived back at camp, Donna, Danny, Mike and Meta went to Sand Cave. At first, they couldn't get the lock off the gate but at last it was opened and they visited the Lily Pad Room.

Endless Cave was de-flagged prior to the rest of us going to town for a welcome motel for the night.

COVER: This months cover is the start of our mailing list. Some names have been added for your use for the phone numbers and addresses. The way the "fields" were set up in our data base, I alphabetized on the "mailname" and the first letter of the first name is what it acted upon. So if you need to find the information on "John Doe", don't look for the "D's", it would be under "J" for John. The first phone number listed directly under the City and State is the Home phone that I have on file and the second phone number is the work phone number.
